Balancing Development & Conservation

延續 2007 年經修訂的大嶼山發展概念計劃的指導原則
A continuation of the guiding principle of 2007 Revised Concept Plan for Lantau

為何要發展大嶼山？ Why Develop Lantau?

- 大嶼山是全港最大的島嶼，隨著香港國際機場遷往赤鱗角，由昔日偏遠的離島蛻變成今天多元化的地區，當中有新市鎮和郊野公園。
- 坐擁策略性的地理位置和運輸基礎設施，包括香港國際機場及港珠澳大橋，大嶼山將不再是香港西部盡頭，而是直通全球及大珠三角的雙門戶。
- 配合香港長遠可持續發展，大嶼山能提供土地作社會和經濟發展及保育珍貴的自然及文化資源。

- Lantau, the largest island of Hong Kong, has evolved from a remote area into a place of diversity with new town and country parks since the relocation of Hong Kong International Airport (HKIA) to Chek Lap Kok.
- With a strategic geographic location and transport infrastructures, including the HKIA and Hong Kong-Zhuhai-Macao Bridge (HZMB), Lantau will no longer be the west end of Hong Kong but a double gateway to the world and the Greater Pearl River Delta (PRD).
- For the long-term sustainable development of Hong Kong, Lantau can provide land for social and economic development and valuable natural and cultural assets for conservation.
